

Excellent Potential for Secondary Uranium Deposits

URANIUM, NICKEL, BASE METALS, COPPER, COBALT, ZINC FOCUS

The Projects:

1. > 5,000 square kilometres tenement area (6 projects).
2. Close to Alice Springs infrastructure.
3. Milton Park Project: Excellent potential secondary uranium deposits.
4. Extensive airborne surveys to be conducted in 2008.

**Stokes Yard Project:
27.55% Zinc, 75g/t Silver**

NMI's Northern Territory Projects are situated in a highly prospective area for uranium and base metals. NMI's Milton Park Project E24746 abuts Farm-In Partner NuPower Resources Limited's E24548 (immediately south) and immediately east E24956. These tenements are currently the subject of extensive follow-up airborne surveys over palaeo-channel systems discovered by NuPower.
